Wholesale Bulletin
NOVELTIES

We have always been specializing in BETTER NOVELTIES of Shrubs, Evergreens, Roses and Perennials, and following are some of the very choicest varieties, which will mean a big profit to handle, and will give you a reputation of being up-to-date and modern in presenting to your customers NEW AND BETTER PLANTS while they are new—just what your customers are looking for—and it will, of course bring good orders for old stand-by varieties also. Do not pass up this opportunity; but let us fill your requirements as far as our list goes.

With our increased and improved facilities in propagation, we are able to offer the following very choice stock at the following low prices.

TERMS—Cash with order, or satisfactory references; then 30 days.
Boxing at cost. Complaint, if any must be sent within ten days;
otherwise they will not be entertained.

FALL -:- 1930

delivery \$7.50 per 100; \$65.00 per 1000

NEPETA MUSSINI, SEDUM SPECTABILIS AND S. SPUR-

EUM. Field grown plants \$6.00 per 100; \$50.00 per 1000

Our Two Leaders

New Buddleia Alternifolia

This is the hardest "Butterfly Bush" yet introduced. Only once in a lifetime do we find a new shrub of so outstanding merit as this. While other Buddleias freeze down to the ground every winter, and during the summer grow to a height of five or six feet, being too large for a perennial border and not suitable for among shrubs, this wonderful new Buddleia DOES NOT FREEZE DOWN in the winter, but is just like other shrubs, filling a long-wanted place for Buddleias. It is a very distinct and charming sight while in bloom, with its long arching or pendulous branches covered with clusters of lilac-purple flowers from midsummer until late fall.

Strong plants from 2 inch pots for either immediate or later delivery, \$10.00 per 100; \$75.00 per 1000.

New Moerheimi Blue Spruce

This is a new and wonderful improvement of the famous Koster's Blue Spruce, with dazzling silver-blue needles and perfect form. Bluest of all. Strong plants from beds grafted last Fall and Winter and planted in beds in Spring of 1930. For immediate or later delivery, \$8.50 per 10; \$75.00 per 100; \$650.00 per 1000.

For Spring, 1931, delivery only, strong winter grafted plants from 2½ inch pots, \$7.00 per 10; \$60.00 per 100; \$500.00 per 1000.

Koster's Blue Spruce Grafts from 2½ inch pots (winter grafts) for Spring, 1931, delivery, \$6 per 10; \$50.00 per 100; \$400.00 per 1000

PLANTING ADVICE:— It is very important that the grafts of Blue Spruce are planted with union of grafts below the surface of the soil. They will then make root of their own from the lower part of the scions, thus making a much more vigorous plant. Failure to comply with this advice may bring you heavy loss in transplanting.

KOLKWITZIA AMABILIS (New Beauty Bush). Strong plants from 2 inch pots for immediate or later delivery.

\$7.50 per 100; \$65.00 per 1000

Strong field grown plants 6-12 inches, \$3 per 10; \$25.00 per 100

Strong plants from field, 12-19 inches, \$4 per 10; \$35.00 per 100

NEW KOREAN CHRYSANTHEMUM. This iron-hardy Chrysanthemum gives us flowers from October to December, and has large daisy-like flowers with golden center, turning to a light claret pink. Plan to include this hardy perennial in your selection. It will bring profitable and increasing sales and satisfaction.

Strong field grown plants, \$10.00 per 100; \$75.00 per 1000

Strong plants from 2" pots \$7.50 per 100; \$65.00 per 1000

NEW GYPSOPHYLLA (Bristol Fairy and Ehrle). Both wonderful improvements over the old double variety. Indispensable for florist use. Strong grafted plants from 2" and 2½" pots, for Spring, 1931, delivery only.

\$2.50 per 10; \$20.00 per 100; \$150.00 per 1000

All orders received before November 1 will be charged at the 1000 rate only.

White Pine and Hemlock

For years we have been collecting native plants and we note with pleasure that our old customers come again every year, simply because we select and ship out only first class material, which only can give satisfaction.
